This document contains a summary of the fixes to known issues included in the GIFTS Alta 1.7.02 Patch released on March 13, 2015.

What's included in GIFTS Alta 1.7.02 Patch?

GIFTS Alta 1.7.02 includes fixes for several of known issues.

How do I get the GIFTS Alta 1.7.02 Patch?

The 1.7.02 patch has been added to a new GIFTS Alta 1.7 master install pack. Clients will simply need to send a request to upgrade_inquiries@microedge.com for the download link.

How do install the GIFTS Alta 1.7.02 Patch?

For customers with Alta 1.7 already installed:

1. Download the new GIFTS Alta 1.7 master zip package and extract to a workstation with network access.
2. Backup your database.
3. Run the Setup.exe file from Master\Install subfolder.
4. At the end of the install, uncheck the option to upgrade the database.

For customers who are upgrading to Alta 1.7:

1. Run the Setup.exe file from Master\Install subfolder.
2. At the end of the install, make sure the upgrade database option is selected.

For new customers:

1. Run the new Master install.
