Building a Better World

At Blackbaud, driving social impact isn't a side project; it's our business.

Since day one, 100% of our work has been focused on building a better world. Our commitment to driving social good is central in everything we do, including:

- Making our social good customers more effective and strengthening the broader social economy through our software, services, expertise, and data intelligence
- Contributing to the Ecosystem of Good™ through our corporate citizenship practices
- Empowering our employees as individual agents of good

This comprehensive commitment and the real impact it drives is why Fortune named Blackbaud one of 56 companies "Changing the World" in 2017.

Our Corporate Citizenship

Blackbaud's vision is to power an ecosystem of good that builds a better world.

By connecting the social good community we can accomplish more together than we can individually. Blackbaud's corporate citizenship strategies enable us not just to power this Ecosystem of Good, but to participate in it.

We are committed to governing our business ethically, being a caring employer, contributing to causes and communities through corporate philanthropy, and pursuing sustainability. In our robust corporate social responsibility efforts, we prioritize:

Empowering our people as agents of good

A thriving social economy depends on engaged individual change agents, so we support the passion of our employees through cultivating a vibrant commitment to board leadership across our staff (with a quarter of employees serving on nonprofit boards), and supporting and amplifying employee commitment to causes through corporate matching and time off for volunteering.

Helping the cities where we live and work to thrive

We are proud to contribute to the many communities around the world where our 3,400 employees live and work each day. We've demonstrated our deep commitment to our global headquarters home of Charleston, SC, with a \$1M gift to the International African American Museum, and in every city where we work through employee-led grants and service projects.

SHARED VALUE

As a Shared Value company, Blackbaud drives social good while addressing a market need. In doing so, we create lasting value for our customers, our shareholders and the broader social economy. The opportunity we address is significant: the nonprofit sector alone represents the third largest workforce in the US behind manufacturing and retail. The stakes are high: every 1% improvement in fundraising effectiveness in the social good space makes \$3.7B more available for program work that advances social good.

By focusing wholly on this vital and underserved market, Blackbaud has built not just a successful business model, but an innovation engine that has played a role in driving advances on social issues of every kind.

Our Corporate Citizenship (cont.)

Building a healthy future in the tech and social good communities

Leading uniquely at the intersection of technology and social good, it is a responsibility and privilege to serve these industry communities.

Social Good Community

- Sharing research and insights to drive impact across the philanthropic sector through the Blackbaud Institute for Philanthropic Impact
- Engaging in social good and social innovation initiatives that lift the philanthropic community like #GivingTuesday, the Shared Value Initiative, AFP, The Giving Institute (Giving USA)
- Supporting the social good community's response to major disasters

Tech Community

- Investing in the next generation of diverse tech leaders through Camp Blackbaud (bi-annual software development camps for children) and K-12 tech education initiatives
- Supporting women in tech in partnership with several organizations
