

## CUSTOMER STORY: WINGS FOR KIDS

*“Wings, like many nonprofits, runs a number of different programs and utilizes a variety of funding sources. When evaluating an accounting solution, we needed one that would allow us to segment financials for each specific program - Financial Edge NXT allows us to do so.”*

— Adam Pomerantz  
Chief Financial Officer

WINGS FOR KIDS is an education program that teaches kids how to behave well, make good decisions and build healthy relationships. We do this by weaving a comprehensive social and emotional learning curriculum into a fresh and fun after school program. Kids get the life lessons they need to succeed and be happy and they get a safe place to call home after school.

### Maintaining Accountability— without losing flexibility

“Through the flexibility of the account setup and various tracking options, **Financial Edge NXT** allows us to report in many different ways quickly, which saves staff time. Externally, we need to be 100% confident that we are tracking certain items at the transactional level down to the penny. Financial Edge NXT’s grant tracking process allows for us to pull those transactions automatically, saving a great deal of time and eliminating errors”

## Maximizing our mobility

“Access it anywhere, anytime on any computer, tablet or even phone. Accessibility is great! There will be times when we are out in the field and having information quickly at your fingers tips is great.”

## Better reporting: drill down and push out

“In addition to the finance team utilizing Financial Edge NXT and pushing out reports to managers and directors, we are able to provide read-only access to key individuals so they can view dashboard financials. Managers can drill down to the transaction level to see exactly what is going on with a few clicks of a button. This type of access provides more ownership and accountability over program financials.”

Access it anywhere,  
anytime on any computer,  
tablet or even phone.

Financial Edge NXT allows  
us to track expenses  
to the penny

## Tracking expenses, large and small

“Public funding is usually reimbursable, meaning expenses are incurred and paid for by us before funding is received. Financial Edge NXT allows us to track these expenses to the penny and then generate invoice reports detailing a list of expenditures to be reimbursed. Financial Edge NXT also keeps track of which expenses have been previously reimbursed, ensuring that we do not invoice for the same expense twice.”
