The Raiser's Edge Online User Clinics: Database Cleanup

August 19, 2010

Host: William Jankins, Solutions Consultant

Q&A and Technical Assistance

To submit a text question:

- 1) Click the 'Q&A' pane
- 2) Type your question
- 3) Click the 'Ask' button

Note: Use the scroll button to scroll to your answer if necessary.

For technical assistance connecting:

Intercall: 800.374.1852

Live Meeting: 866.493.2825

Note: These numbers are for technical assistance. They are not the call-in numbers to listen to the event.

Agenda

- Welcome and Introductions
- Blackbaud News and Updates
- Database Cleanup Presentation
- Upcoming Web Events
- How Blackbaud Can Help
- Q&A

Blackbaud NetCommunity Spark™

- Blackbaud NetCommunity Spark is a new online marketing and membership solution that ignites your website!
- Spark seamlessly integrates with The Raiser's Edge
- Bring your website to life with:
 - Unmatched online membership and fundraising tools
 - Email marketing to help drive new & renewing support
 - Online event management and registrations
- Join us for a free web seminar: Ignite Your Website with Blackbaud NetCommunity Spark
 - September 2 at 2:00 p.m. ET
 - September 14 at 2:00 p.m. ET

Blackbaud Learn™

- Blackbaud Learn is an annual training subscription offered in tiered packages to best serve your training needs:
 - Learn
 - Learn More
 - Learn Everything

- Training is available for the following solutions:
 - The Raiser's Edge 7
 - The Financial Edge
 - The Education Edge
 - Blackbaud NetCommunity
 - Blackbaud Sphere

Blackbaud Learn™

Get the most out of your solutions with Blackbaud Learn!

- ✓ Live classes on software skills (online and classroom)
- ✓ Live lessons on best practices and nonprofit strategies
- ✓ Role-based curriculum for specific skill sets
- ✓ Exclusive Q&A office hours with experts each month
- ✓ Self-paced and on-demand classes available online 24/7
- ✓ Constantly evolving curriculum
- ✓ No travel costs or hassle for more than 95% of classes
- ✓ Monthly training newsletter with new class alerts, tips and tricks

View the course catalog online at www.blackbaud.com/training.

Blackbaud Application Hosting™

- **Security:** World-class security measures that employ 24/7/365 system monitoring
- **Uptime Guarantees:** 99.9% or better uptime – applications are always available and designed to perform at the optimal level
- **Disaster Recovery:** Immediate access to key business applications, even when unforeseen events pose an obstacle or threat
- **Cost Control and Savings:** Subscription-based services make IT costs steady and predictable
- **Remote Access:** Access your Blackbaud software anytime, anywhere via a web browser
- **Availability:** Host The Raiser's Edge, The Financial Edge, Blackbaud NetCommunity, The Education Edge, Faculty Access for the Web, NetClassroom, Student Information System, The Patron Edge Online, Blackbaud Enterprise CRM, Blackbaud Direct Marketing, and The Researcher's Edge

- Blackbaud's Conference for Nonprofits is the premier nonprofit event of the year. This two-day professional development and networking event is perfect for anyone who works in the nonprofit community.
- [October 20 – 22, 2010](#)
[Gaylord National Hotel and Convention Center](#)
[Washington, D.C.](#)

The Raiser's Edge Online User Clinics: Database Cleanup

August 19, 2010

Host: William Jankins, Solutions Consultant

Before you start!

o Back up your database

- » How to schedule a backup through the Blackbaud Management Console (SQL Server) **BB Solution # BB97191**
- » How to manually backup the SQL Server database – **BB Solution # BB94455**
- » How to restore from or test a backup in the SQL Server versions – **BB Solution # BB96254** - **What!?!** I have to test the back up, too?!?!

- ◆ **Plan** for scheduled cleanup maintenance
- ◆ **Practice** on Sample Data first!
- ◆ **Who** is doing the cleanup? Security?
Lock it down!
- ◆ **Evaluate** the results

Database Cleanup

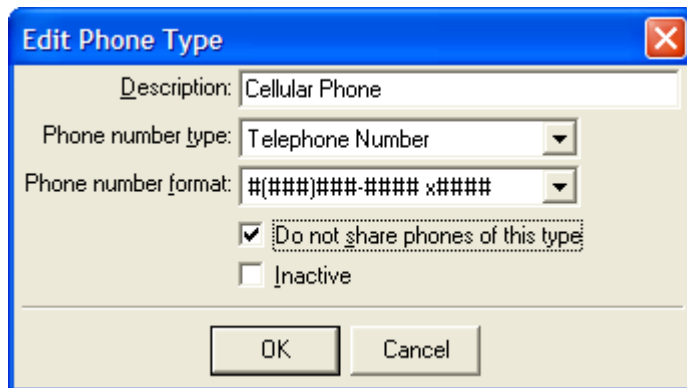

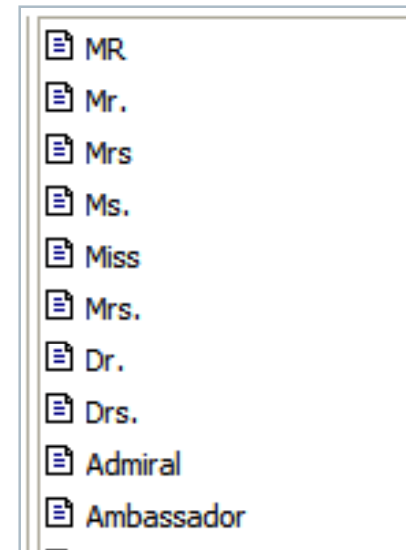

Some places to start...

- **Code Tables**
- **Attributes & Appeals**
- **Duplicate Records**

Database Cleanup – Code Tables

- Do all code tables have a purpose?
- Similar/Duplicate table entries
- Mark archived entries as “Inactive”
- Table order (promote most frequently used entries)
- Clean up everything from Letter Codes to Titles!

- Remember phone types have more options than all other table entries

Also... Straighten-up your drop-downs

- Get rid of misspellings & duplicates
- Standardize the Database
- **Code Table Security!?**
- No need for a query
- Table Clean-Up Wizard used for on-going clean-up!

Titles Table Cleanup

Titles table entries to be replaced

- Mr.
- Mister
- MR

Constituents Records

Replace with

Delete table entries that are being replaced

The areas listed above use entries from Titles table. Entries found in any of those areas will be replaced.

Function is found in **Configuration, Tables, Table Cleanup.**

Setting Up Fields & Attributes

Do you ever feel like The Raiser's Edge has either too much or too little information? Did you know that you can:

- Hide fields
- Rename fields
- Make fields required
- Turn fields into tables to streamline data entry
- Design your own fields (Attributes) to track anything!
- Use Attributes to filter reports

Fields & Attributes Continued

Fields:

Accessed from Config in RE7:

- Change display name (rename them for other uses!)
- Make required
- Make hidden (hide unused fields!)
- Turn into lookup fields (table-driven)

Configuration • Fields - Sample Data

Configuration Find...

Fields & Attributes Continued

Attributes:

Accessed from Config in RE7:

- Design your own fields
- Filter reports by them!
- Make them required
- Allow one per record

Allowed data types:

1. Text
2. Number
3. Date
4. Currency
5. Yes/No
6. Table
7. Constituent Name
8. Fuzzy Date

Configuration • Attributes - Sample Data

Description	Data Type	Table Name	Allow Only 1 per R...	Requ...
Staff Manager	Constituent Name		<input checked="" type="checkbox"/>	<input type="checkbox"/>
Special Mailing Types	Table	Special Mailing Types	<input type="checkbox"/>	<input type="checkbox"/>
Retirement Date	Date		<input checked="" type="checkbox"/>	<input type="checkbox"/>
Origin	Table	Origin	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Organization Type	Table	Organization Type - ...	<input type="checkbox"/>	<input type="checkbox"/>
MergeID	Text		<input type="checkbox"/>	<input type="checkbox"/>
Medical Facilities	Table	Medical Facilities	<input type="checkbox"/>	<input type="checkbox"/>
Interests	Table	Interests	<input type="checkbox"/>	<input type="checkbox"/>

Dietary Preference	Table	Dietary Preference	<input type="checkbox"/>	<input type="checkbox"/>
Diagnoses	Table	Diagnoses	<input type="checkbox"/>	<input type="checkbox"/>
Committees	Table	Committees	<input type="checkbox"/>	<input type="checkbox"/>
Closing Codes	Table	Closing Codes	<input type="checkbox"/>	<input type="checkbox"/>
Business Hours	Text		<input checked="" type="checkbox"/>	<input type="checkbox"/>
Availability	Table	Availability	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Anniversary	Date		<input type="checkbox"/>	<input type="checkbox"/>

Cleaning Up Attributes

- o Limit use of attributes (only use when necessary), consider renaming fields)
- o Data type: text vs. table
- o Allow only 1 per record?
Required? Checkboxes

Knowledgebase Tip: BB133433

How to globally delete an attribute! Don't forget to backup the database first!

Description	Data T...	Table N...	Allow Only 1 per Record	Required
Committees	Table	Committ...	<input type="checkbox"/>	<input type="checkbox"/>
Interests	Table	Interests	<input type="checkbox"/>	<input type="checkbox"/>
Board Consideration?	Yes/No		<input checked="" type="checkbox"/>	<input type="checkbox"/>
Anniversary	Date		<input type="checkbox"/>	<input type="checkbox"/>
Language	Table	Languages	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Closing Codes	Table	Closing ...	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Volunteer Type	Table	Volunte...	<input type="checkbox"/>	<input type="checkbox"/>
Volunteer Skills	Table	Volunte...	<input type="checkbox"/>	<input type="checkbox"/>
Availability	Table	Availability	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Think “globally”

- ◆ Globally Add Records
- ◆ Globally Change Records
- ◆ Globally Delete Records

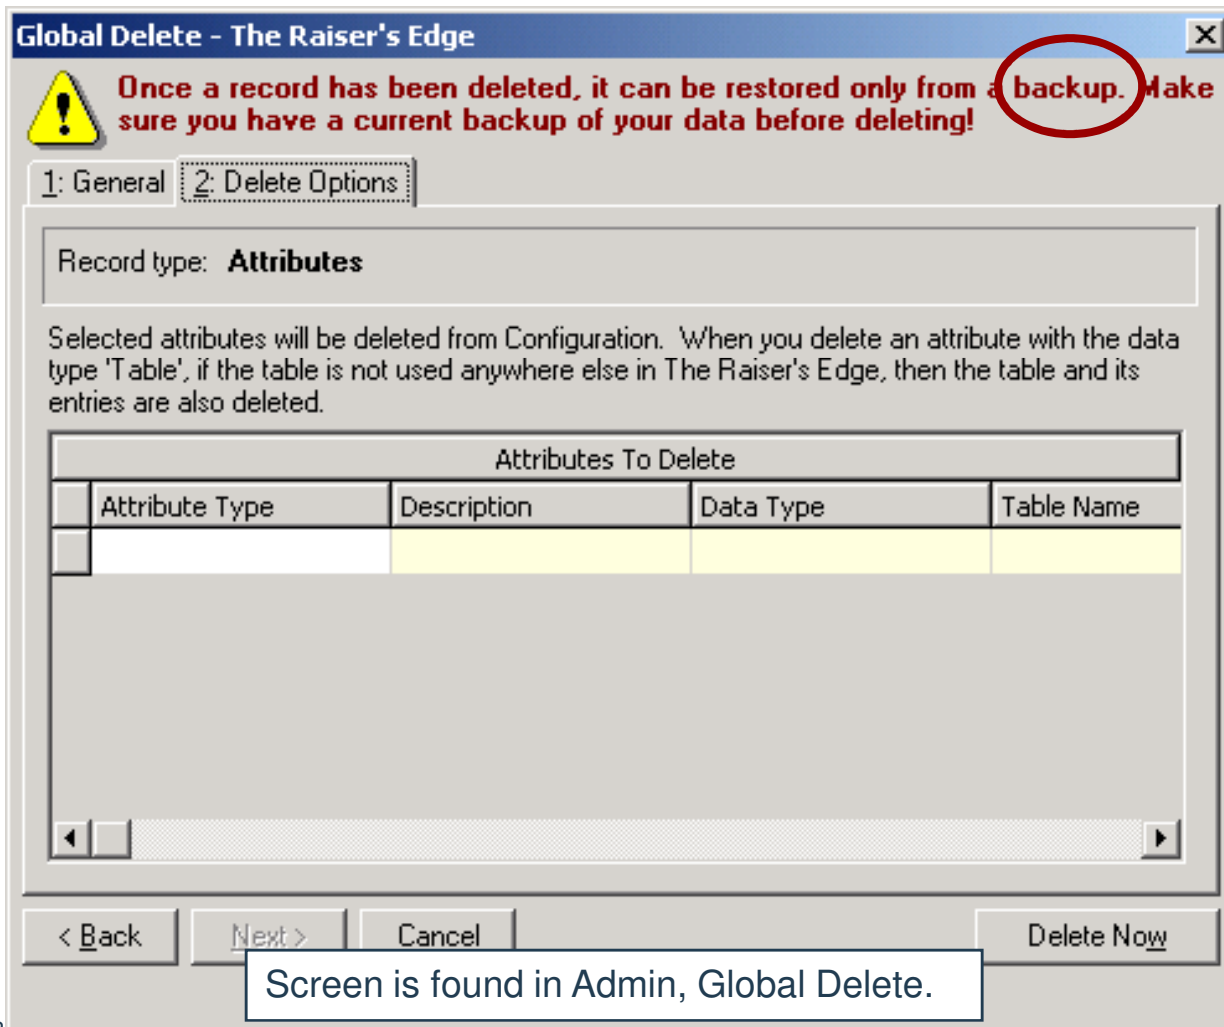

Administration

- ▶ System Statistics
- ▶ Import
- ▶ Globally Add Records
- ▶ Globally Change Records
- ▶ Globally Delete Records
- ▶ Globally Write Off Pledges
- ▶ Convert Pledges To Recurring Gifts
- ▶ Post to General Ledger
- ▶ Duplicate Constituents
- ▶ Merge Constituents
- ▶ Drop Lapsed Members
- ▶ Security
- ▶ Queue
- ▶ Data Enrichment Services

Think “globally”

Get rid of unnecessary attribute clutter

Ask yourself:

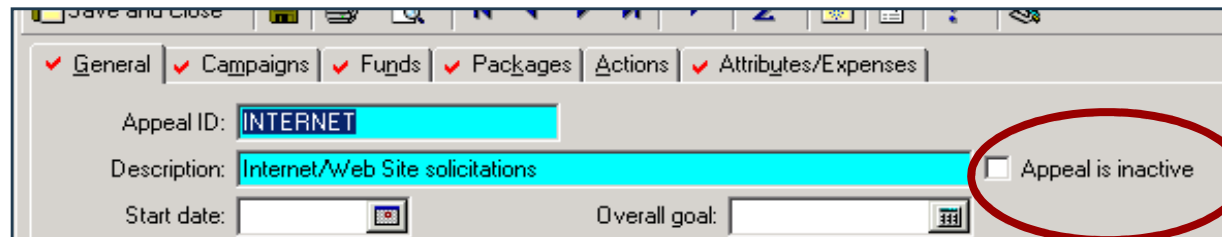

1. Are we actively using the attribute?
2. Does it provide valuable info?
3. Does anyone know what it means?!?!

If you answered No, No, and **NO!**, it needs to go. (Make sure to back up)

And then...

Extend your planning/clean up to other record types

- Using a gift attribute or code to track online giving (all online gifts)
- Cleaning up **Campaigns, Funds, and Appeals** to reflect your fundraising processes (globally replace!)
- Structuring your system to reflect reality!

The screenshot shows a software window with a menu bar at the top containing 'File', 'Edit', 'View', 'Tools', 'Help', and 'Print'. Below the menu bar is a tabbed interface with tabs for 'General', 'Campaigns', 'Funds', 'Packages', 'Actions', and 'Attributes/Expenses'. The 'General' tab is active. The 'Appeal ID' field contains the text 'INTERNET'. The 'Description' field contains the text 'Internet/Web Site solicitations'. To the right of the 'Description' field is a checkbox labeled 'Appeal is inactive', which is currently unchecked. Below the 'Description' field are two input fields: 'Start date' and 'Overall goal'. The 'Start date' field has a calendar icon, and the 'Overall goal' field has a numeric keypad icon.

Take advantage of the Inactive checkbox to postpone cleanup that can come later.

Use Business Rules to Assist in Cleanup

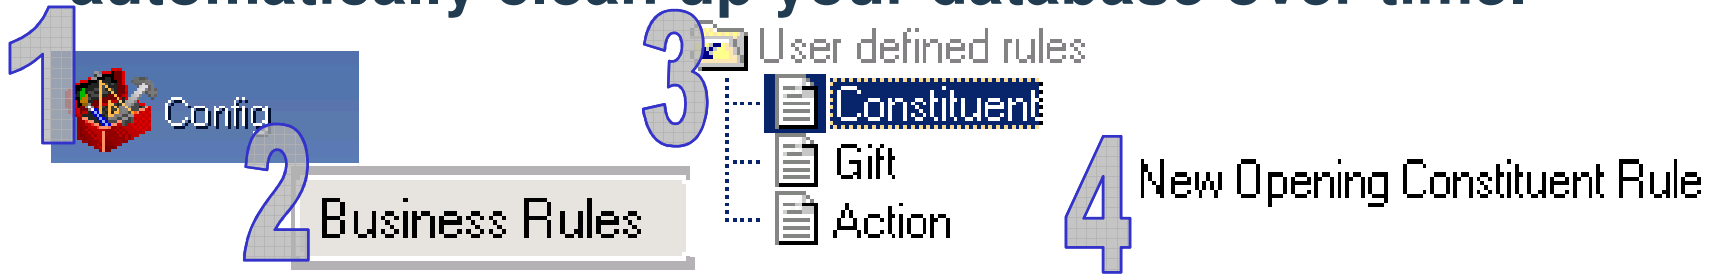

Business Rules:

- Speed up data-entry!
- Ensure accuracy!
- Provide excellent donor service!
- For opening constituents
- For adding gifts
- For adding actions
- User-defined

Accessed from Config, Business Rules, User Defined Rules

Use **BLANK** queries to create business rules that will automatically clean up your database over time.

5

New Rule for Opening Constituents

Rule name: Warn if somebody has missing address lines

Query name: Records with blank addresses

Message: This record currently has missing address information. Please correct this situation if possible. Thanks for helping clean up our database!

6

Opening Constituent Rule

This record currently has missing address information. Please correct this situation if possible. Thanks for helping clean up our database!

OK

Common Cleanup Queries

- Constituent ID - Blank
- Inactive? equals Yes
- Preferred Address Line 1 - Blank
or Preferred City – Blank
- Primary Salutation - Blank
and Key Indicator equals Individual
- Constituent Code - Blank
- Title 1 - Blank

Noticing a trend?

Cleaning up Duplicates: Easy as 1,2,3!

Step 1: Set your options first!

(found in **Configuration, Business Rules, Duplicates**)

Step 2: Run the Duplicate Constituent Report

(found in **Admin, Duplicate Constituents**)

Step 3: Finally, merge those duplicates!

(found in **Admin, Merge Constituents**)

Merge Constituents

This facility will merge the information stored in one constituent record into another constituent record.

Merge From William Jenkins **Merge To** William Jenkins

Information

- Spouse
- Contacts
- Addressee/Salutation
- Education Information
- Relationships
- Notes
- Bank Information
- Actions
- Media
- Attributes
- Solicitor

Information to be merged

- Biographical
- Gifts
- Appeals

Exclude soft credits when merging gifts

Delete source constituent

Merge Now Cancel

Summary Notes

- The adage is true - junk in *really* is junk out.
- Use Business Rules (Configuration) and Security (Admin) to help manage ongoing clean up.
- Make sure your database and the information in it reflect your reality.
- Document Everything! Use a Policy & Procedure book to record what was changed and why.
 - Don't have one? Check out our website and use the CASE method!

Don't forget to Document!

Policies and Procedures

- Documented & Available!
- Coding System/Inactivity Requirements
- Security Standards
- Business Rules
- Backup Plan
- Follow-up Plan (What works – What won't)
- Ongoing budget considerations (Training, other assistance, add-ons?)
